EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

The originally presented claims were the subject of a restriction requirement mailed September 23, 2009. Applicant's response to the requirement filed October 23, 2009 included amendments to the claims, as well as a traversed election to prosecute Group I, original claims 12-17. In view of the amendments to the claims and the arguments presented with the election, the requirement for restriction between the process claims and the apparatus claims is hereby withdrawn and all of the pending claims are examined on the merits herein. Applicant should note that any future filings that present claims that conflict patentably with the claims that are allowed herein would result in an obviousness-type or statutory double patenting rejection, since the restriction requirement has been withdrawn.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or suggest a process or apparatus having a cylindrical mixing chamber arranged along a horizontal axis, wherein the inlet for the combined liquid and gas stream and the outlet for the liquid with dissolved gas therein are both tangentially

connected to the chamber, and wherein the outlet is connected to a pipe and nozzle means for delivery of the fluid from the chamber to a tank, the nozzle means being submerged in the liquid within the tank. It is noted that the British reference cited by applicant teaches a cylindrical chamber with tangential inlet and outlet means, however, the reference fails to include a nozzle connected to the pipe from the chamber outlet, and fails to suggest submerging the outlet end of the pipe within the liquid of the tank, whether or not a nozzle exists thereon.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CONCLUSION

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Bushey whose telephone number is 571 272-1153. The examiner can normally be reached on M-Th 6:30-5:00.
